

## The *SID Symphony Stereo Cartridge*

Enjoy stereo *Sidplayer* music conveniently and affordably with the *SID Symphony Stereo Cartridge* from Dr. Evil Laboratories! This cartridge provides you with three more SID voices and true stereo sound capability. There is no assembly required—simply plug the cartridge into your Commodore 64, 64C, SX-64, 128, or 128D and prepare yourself for breathtaking 6-voice stereo symphonies!

Many stereo *Sidplayer* songs, both standard and enhanced, are already available in the public domain, as is the player program for stereo SIDs, Mark A. Dickenson's *Stereo Player v10.0*. You can even create your own stereo *Sidplayer* songs with *Compute!'s Music System for the Commodore 128 and 64: The Enhanced Sidplayer*, available from your local bookseller. *The SID Symphony Stereo Cartridge* is the only cartridge endorsed by Craig Chamberlain, author of *The Enhanced Sidplayer*.

The cartridge is powered by a replaceable 9-volt alkaline battery to give you hours of entertaining music. No extra hardware is required, except that you will need two RCA male-to-male cables to connect the outputs of your computer and cartridge to your stereo system.

The *SID Symphony Stereo Cartridge* is priced at only \$34.95 postpaid, making stereo music affordable for all Commodore computer owners. Plus, the cartridge is backed by Dr. Evil Laboratories' limited 90-day warranty.

**Note:** Also available is a disk with the latest version of *Stereo Player* and 39 stereo songs for \$1.00 as a service for those who do not have access to SID music libraries. This disk is not part of the standard \$34.95 cartridge package.

---

Please send me \_\_\_\_\_ *SID Symphony Stereo Cartridges* at \$34.95 each postage paid.

\_\_\_\_\_ Please include the *Stereo SID Music Collection Vol. 1* disk (\$1.00).
